Project Name	Global AI Adoption in Education
Maximum Marks	5 Marks

Data Story / Observations

The Tableau story presents the analysis in a logical sequence, starting with overall AI adoption and moving toward country, regional, stakeholder, tool, and time-based analysis.

Observations:

- **Overall AI Adoption:** The dashboard provides an overview of AI adoption levels in education and helps understand the current state of AI usage.
- **Student and Teacher Usage:** Student and teacher AI usage can be compared across countries, highlighting differences between the two education stakeholders.
- **Country-wise Daily Usage:** Average daily AI usage varies across countries, allowing users to identify countries with relatively higher and lower usage.
- **Leading AI Tools:** The comparison of leading AI tools highlights which AI tools are more commonly used in the education sector.
- **Rural vs. Urban Adoption:** The year-wise analysis shows the growth of AI usage in rural and urban areas and helps identify the difference between the two areas.
- **Regional School Adoption:** School AI adoption varies across regions, helping identify regions with stronger or weaker adoption.
- **Year-wise Adoption:** School, student, and teacher AI adoption can be compared over time to understand the development of AI usage in education.
- **Global Geographic Pattern:** The country-wise map provides a global view of AI adoption and makes geographical differences easier to identify.

- **Interactive Decision Support:** The Tableau story combines multiple visualizations into a single narrative, allowing stakeholders to move from the overall picture to detailed AI adoption insights.

Story Flow

Story Point 1 → Overall AI Adoption

Story Point 2 → Global AI Adoption Map

Story Point 3 → Student & Teacher Usage

Story Point 4 → Average Daily AI Usage

Story Point 5 → Leading AI Tools

Story Point 6 → Rural vs. Urban Growth

Story Point 7 → Regional School Adoption

Story Point 8 → Year-wise School, Student & Teacher Adoption

Activity 2: Publish Story on Tableau Public
